PROFESSIONAL SUMMARY

Frontend & MERN Stack Developer

Present

- Creative developer specializing in **responsive, visually engaging web applications** using **React.js, Tailwind CSS, and Node.js**.
- Strong grasp of **modern JavaScript, UI/UX design**, and performance optimization for seamless user experience.
- Passionate about clean code, component reusability, and building projects that blend functionality with design.

KEY PROJECTS

MicroTech Website | React, Tailwind CSS, Node.js | Live Demo

Oct 2025

- Developed a professional business website for **MicroTech – iPhone & Android Service Expert** using React and Tailwind CSS.
- Implemented **glassmorphism design, service showcase, and contact form** with gradient visuals for an energetic look.
- Optimized SEO and accessibility, achieving **95+ Lighthouse scores** in core categories.
- Deployed via **Netlify** with Git-based CI/CD for continuous updates.

Pixel Frames | React, Node.js, Cloudinary, Netlify | Live Demo

Sept 2025

- Built a full-stack wedding and event photography portfolio with photo/video upload, client galleries, and service management.
- Integrated **Cloudinary API** for secure media storage and retrieval.
- Responsive UI with mobile optimization and animations for a polished experience.

Portfolio Website | React, Node.js, Netlify

Jul 2025

- Designed and deployed a personal portfolio showcasing projects, education, and skills.
- Focused on clean layout, glassmorphism UI, and cross-device optimization.
- Live Demo: saabik.netlify.app

TextUtils Web App | React, JavaScript, Node.js

Jan 2024

- Built a text utility tool supporting case conversion, duplicate removal, and email extraction.
- Improved performance and responsiveness using React hooks and modular components.

Part-Time Job Portal (Team Project) | React, HTML, CSS, JavaScript

Nov 2023 – Jan 2024

- Collaborated in a team to design a student job portal with authentication and recruiter access.
- Contributed to UI design and state management.
